

# Project 40

The Project 40 Academy, affiliated with the University of South Florida, and led by USF Head Men's Soccer Coach, George Kiefer, is running a year long private developmental program for male soccer players of all skill levels between the ages of 8 to 13, called Project 40. The program is geared toward improving a young soccer player's technique, skill level, and abilities. Project 40 is to coincide with a player's participation in their recreation or club team and to further prepare them for future high school and college soccer play.

The Project 40 Academy guarantees that your child will be an improved soccer player after attending Project 40. Technical development, quickness, and movement with the ball are all highly emphasized during the year-long training program. Outlined below are the specific areas the program will train each player in:

- Moves to beat players 1v1 ★
- Moves to escape pressure ★
- Changing speeds w/ the ball ★
- Speed agility & fast footwork ★
- Turning with the ball ★
- Shielding the ball ★
- Scoring Goals ★

In addition to your child improving in all of these areas, he will have the unique opportunity to work with USF's Men's Coaching Staff and Team. He will also get the opportunity to play along side other young soccer players with the same goals of becoming a better more confident soccer player.

Project 40 is a unique opportunity for your child not to miss, and only 40 children will be admitted to the program on a first come basis. Project 40's session and payment schedule are outlined to the right along with an application to register. All sessions will take place at the USF Men's Soccer Facilities from 6pm-7:30pm, conveniently located between Fowler and Fletcher Avenues on the USF Campus in Temple Terrace.
