

USF COLLEGE ID

CLINICS 2012

FEBRUARY 24 - MARCH 30

BOYS AGES 13 TO 18

5 USF COLLEGE ID SESSIONS

CLINIC INFORMATION

The USF College Combine creation is three fold, the first is to help local High School age male players get identified by some of the top schools in the country and Florida. The second is to help the player learn different philosophies from different coaches and help them better understand the commitment to play at each school. The third is to provide an open forum to parents at the end of each session to allow them to ask questions and gain opinions from some of college soccer's best coaches.

Each training session will be designed by the university running the session that will be tailored to how that university plays. The on field session will be 1 ½ hours and then we will move into a conference room to have a ½ hour Q&A between parents, players, and the featured coach. Each featured coach will be supplied with contact information for every player, so if they feel there is a fit, they can begin to communicate with the prospective student athlete as long as NCAA rules permit the contact.

We have commitments from UNC/Chapel Hill, UConn, Penn State, Florida Gulf Coast, and USF.

Check-in on February 24 will be at 5:30pm in the Big East Conference Room within the Athletic Facility and the session will immediately follow from 6-7:30pm. Immediately following the session we will hold a Q&A in the Big East Conference Room from 7:45pm-8:30pm with the featured college program. The remaining four scheduled meetings and sessions will run the same but check in will be at the field from 5:45-6pm.

SCHEDULE

**UNC | CHAPEL HILL
FEBRUARY 24**
